2025 - Present

UDEMY

Next.js

2025

UDEMY

FastAPI for Web APIs

2024

ESTÁCIO DE SÁ

Web Development in Python (Flask / Django)

Professional Experience

(Jul 2023 - May 2025)

PYTHON WEB DEVELOPER / DATA ANALYST

AMF – Safety Shoes · Guimarães, Portugal

- Built internal web apps in Flask + SQL for request tracking and incident reporting, accessible via browser.
- Delivered KPI dashboards (Power BI + Python + SQL) for production and commercial visibility.
- Implemented backend logic in Python (Flask / FastAPI) and delivered web interfaces used daily by non-technical staff.

(May 2021- Mar 2023)

DATA ANALYST

INCRA-RJ · Rio de Janeiro, Brazil

- Built Power BI dashboards and monthly operational reports for leadership.
- Structured data with Python and SQL to support decision-making.
- Standardized how performance information was communicated internally.
